It gives me great  
pleasure to answer  
that document you  
sent me first of  
all I always thought  
was under the  
impression that  
ducks and geese  
migrated in November  
and that is not  
late summer  
second they fly

high we live in  
the country and

see them in  
flight in the  
spring and in  
the fall and  
they always  
fly high and to  
boot. they are

noisy. I have you  
keep stressing that  
the U. S. O's are  
non-existent then  
you say they are  
not a threat

CASE JAN 64

~~XXXXXXXXXXXX~~  
Deford, Mich

In answer to your letter concerning a appeal let me inform you that I never made a appeal on the contrary when I wrote to Mobile I stated that I would pay for my own antenna I only wanted the truth which I never got only nonsense about a sonic boom. As to the markings on planes I know that all planes are marked air force and private navy etc

you must take me  
for a idiot not  
to know that.

I also know that  
was not a private  
job: I state to you  
as I stated to Mobile  
that was a U. S. O  
or if you dont know  
what U. S. O is a  
flying saucer. from  
outer space. My  
daughter and I made  
a bet that you would  
not answer. If I were  
in your position I  
would be more sensible  
about the whole

U. S. O. business I  
would be more truth  
ful about the whole  
deal. One more matter

(3)

what do you do about  
the U. S. P. reports? bury  
them under the rug  
you must have a  
very lumpy rug by  
now. I am also  
glad to state that  
we put up our  
own antenna if we  
had waited on you  
speedy boys we  
would be without  
a antenna now.

In case you are  
interested we saw  
two U. S. P.'s last  
week I'll define it  
flying saucers from

outer space

P.S. If you don't  
like a lumpy rug  
bring the U.S.O's  
out in the open then  
your rug will be  
nice and tidy.

make up your <sup>3</sup>  
mind do they exist  
or not. I think  
it would be better  
if you came out  
with the truth.  
I also agree with  
Major Teyhoe  
a fine man  
you should tell  
the truth and  
not beat about  
the bush.

Mrs. ~~XXXXXXXXXX~~  
Bedford, Mich.

To whom it may  
concern - I am very  
interested in St. B's  
or flying saucers as  
we have sighted  
them quite a few  
times. Would it be  
too much to ask  
for complete inform-  
ation on these objects  
also do you have  
pictures of these  
objects?
